Al Consulting Use Case

PROBLEM

An Austin based consumer product company that is looking to utilize the massive pile of data they collect on a daily basis. They are looking to make a data driven decision on what direction to take their business.

They faced some hurdles:

- They don't have the funds to engage a traditional consulting firm
- The technical team is focused on their customer facing platform
- Their core competency is their business, not Al solutions

A(I) SOLUTION

recruitAbility.ai was engaged to devise and execute a solution.

HOW WE DID IT

- Engaged a 2 day kick off moderator led meeting to understand the root of the problem
- Concluded several scenarios where
 Al is necessary and how it could
 accelerate their business
- Constructed a 6 month engagement to integrate Al into their tech stack
- Developed a coinciding hiring plan to ensure long term success

OUTCOME

HAPPY ENGINEERING TEAM

The technology team is excited about integrating Al into their stack along with upgrading their skill sets.

HAPPY EXECUTIVE TEAM

They are now able to articulate to their investors a clear, data driven path for the next growth phase.
